

- Find "Create Group" in the sidebar of your FB home page
- Name your group and add at least one person (it won't let you start your group until you do)
- Make your group "Closed"
- Choose a group icon (or don't)
- Enter the "group settings" options

- Change Membership approval to "Any member can add members, but admin must approve"
- Choose a good name for "Set up Group Address" resulting in Facebook.com/groups/YourGroupName
- Create a description for your group - Keep it brief
- Allow Members to post to the group
- Don't require approval by admins to post to the group
- Save changes
- Interact and be nice
